You Should Now Have Your New Medicare Card

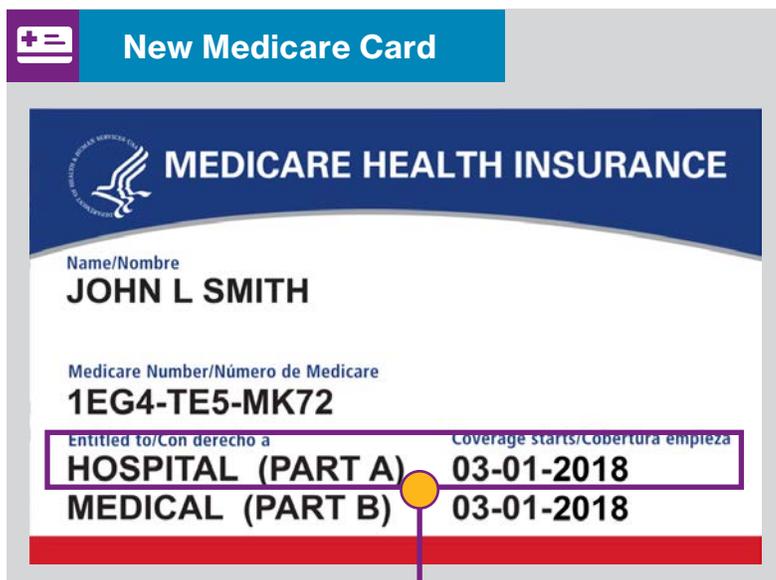

The Centers for Medicare and Medicaid Services (CMS) has removed Social Security numbers from Medicare cards to prevent fraud, fight identity theft, and keep taxpayer dollars safe. The CMS has issued the new cards, and you should have yours now.

If you have not received your new Medicare card, follow these instructions:

1. Check unopened mail you've saved. Your new Medicare card is in a white envelope from the Department of Health and Human Services.
2. Go to mymedicare.gov to get your number or print your official card.
3. Call 1-800-633-4227 (TTY: 1-877-486-2048). Something may need to be corrected, like your mailing address.

You can still use your old card to get health care services until **January 1, 2020**. Until we are certain all retirees have received their new Medicare cards, Via Benefits will accept both new and old Medicare numbers.

Once you have it, please update your Medicare card number with Via Benefits. You can do this by signing into your Via Benefits account or calling a Via Benefits licensed benefit advisor at 1-888-586-0692.

Changes to Medigap Plan F and Plan C

Recent news articles have outlined the phasing out of Medicare Plans F and C. The reality is, if you have one of these plans now, there is no reason you should leave your plan based strictly on the fact the plan is not accepting newly eligible members.

The Medicare Access and CHIP Reauthorization Act of 2015 (MACRA) passed by Congress changed the law on various aspects of health care. The law states that on or after January 1, 2020, a Medigap policy providing coverage of the Part B deductible may not be issued to a newly eligible beneficiary. Because Plans F and C cover that Part B deductible, they're being phased out.

This means:

- If your Medicare Part A effective date is before January 1, 2020, you can still enroll in Plan C or F
- If you're already enrolled in Plan C or F, you can keep it and won't be impacted
- If your Medicare Part A effective date is on or after January 1, 2020, you cannot enroll in Plan C or F

The key is to review your Part A effective date on your Medicare card. This may be different from when you turned 65.

If you currently have Plan C or F, you will still have options. There's no reason you should pre-emptively leave your plan. Many insurance companies feel these plans will remain healthy.

For retirees with Part A effective dates after January 1, 2020, the latest guidance indicates Plan G will effectively replace Plan F with many of the same features and benefits.

For more information, contact a Via Benefits advisor. We'll tell you what's available and find a plan that's right for you.

Dental and Vision: Are You Covered?

Some people can obtain dental and vision coverage through their former employers. If your dental or vision coverage through your former employer has ended, you have the ability to enroll in these plans through Via Benefits. According to a 2016 Ameritas Actuarial claims study, the average retiree without dental coverage now spends \$1,154 a year on dental care — and costs are rising.

Dental and vision plans offered through Via Benefits are comprehensive and affordable. Using our services, you can access:

- One of the largest nationwide dental networks with over 400,000 providers
- Coverage for regular exams and major services, including dentures and implants
- Objective advice from our licensed benefit advisors
- Plans that fit your needs and budget

You can apply for dental and vision coverage anytime — there's no need to wait for the Annual Enrollment Period. You'll enjoy the convenience of managing all your insurance plans from one secure place. Our licensed benefit advisors will provide you with comprehensive knowledge of your dental and vision options with unbiased advice.

How Medicare Parts A and B Can Help You Throughout the Year

Preventive care is just as important as eating healthy and exercising. Medicare Parts A and B cover an annual wellness visit and many preventive services.

Every 12 months, you can schedule an annual wellness visit with your doctor. The annual visit will gauge your physical health using routine measurements, such as blood pressure, weight, and height. These visits are important to build an annual record and track your overall health.

Services may include:

- Tests
- Screenings
- Counselling sessions

If you have a chronic condition, Medicare may cover some of the tests and treatments you need. For example, if you have diabetes, Parts A and B cover training, supplies, and blood tests to help you manage the condition.

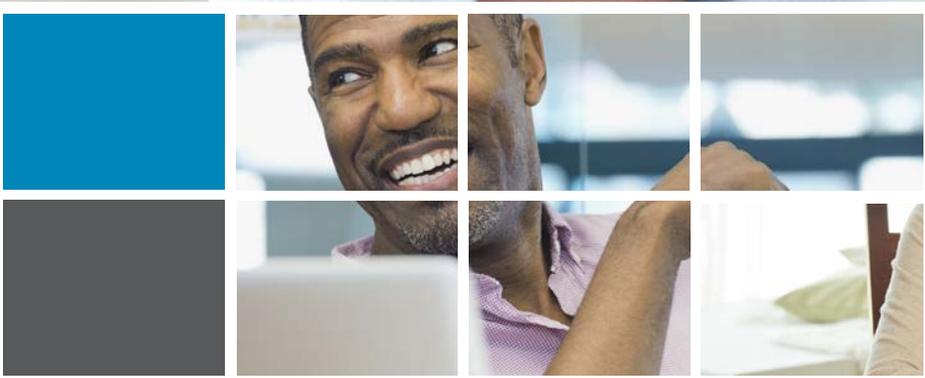

Parts A and B don't cover everything, but they do cover the basics and a lot of preventive services — all important ingredients for a healthy lifestyle.

Advocates for Life

We pride ourselves in our continued, dedicated service to your needs. Feel free to contact us at any time for assistance with your current plan enrollments. Keep in mind that each year during the annual enrollment period (October 15 – December 7), our licensed benefit advisors are standing by to verify whether your current plans are still a good fit, or if more cost-effective options exist.
